Spencer F. Ball, of the Terre Haute Gazette, and Mr. Gould, of the Kewanee Herald, were among the editors at the Lakelast week. Both were accompanied by their wives.

Rev. H. H. Cannon, of Bellmore, Ind., a former pastor at Culver, preached in the Methodist church Sunday. In the evening the Junior Epworth League gave an enjoyable entertainment.

A party of young gentlemen and ladies, in the course of a ramble the other evening, came upon the tramcar used by Capt. Ed Morris in hauling heavy boats out of the water. They concluded to take a coast down the track to the water's edge and took their places in great glee, one remaining behind to stop the car by means of a rope before it should enter the water. After the party got under full headway the man at the rope concluded to go after a drink, so he dropped the line and started off, and into the water up to their waists went the merry coasters, splashing, screaming and spluttering. All were saved and the brakeman has led.

Blood and skin cases, indigestion, constipation, rheumatism, pimples and sores permanently cured by Rocky Mountain Tea taken today. 35c. J. W. Hees.

BRIGHT PROSPECTS

Corn Looks Better Than Was Deemed Probable

Government Crop Report is Favorable in General Though Many Regions Still Stand in Much Need of Moisture—Lake Region and Mississippi Valley Outlook.

WASHINGTON, D. C., Aug. 21.—The weekly crop report issued yesterday by the agricultural department gives the following general summary of conditions throughout the country:

The temperature conditions of the week have been favorable except on the North Pacific coast, where it has been excessively warm. The middle and south Atlantic and east gulf states, including Tennessee, have suffered from heavy rains, the south Atlantic and east gulf states and Tennessee experiencing damaging winds as well as injury from overflows. The greater part of Texas and portions of the Missouri and upper Mississippi valleys and upper lake region continue to suffer from drought, and drought is beginning to affect crops in Oregon and Washington. The Rocky mountain region and California have had an exceptionally favorable week.

A general improvement in the condition of late corn is indicated in the principal corn states. In Iowa the crop is materially improved and more promising than was deemed possible Aug. 1, but the yield is still contingent upon additional moisture soon and the absence of frosts the greater part of September. Late corn has improved in extreme south-eastern Nebraska, but continues to suffer from rain in central and northern counties. In the eastern and western portions of Kansas late corn is much improved, but in the central counties rain came too late to save the crop. In some portions of Missouri late corn is progressing well, but in most sections it is suffering from rain. Good rains in Illinois, Indiana and Ohio have improved the outlook, especially in Indiana, but as in other portions of the corn belt, the greater part of the early corn has been ruined. The propitious outlook for corn in the middle Atlantic states and New England continues.

The weather has been favorable for spring wheat harvest in all sections. Harvesting is nearly finished in the Dakotas, Minnesota, and Oregon, and is in progress in Washington, where, owing to excessive heat, the grain has ripened somewhat too rapidly. In North Dakota, owing to shrunken berry and poorly filled heads, the yield of spring wheat is proving disappointing. The central and eastern portions of the cotton belt have suffered from heavy rains, while drought has become more serious over the greater part of the western districts. In the Carolinas too rank growth is reported, especially on stiff lands and in Georgia, Florida and Alabama heavy rains and high winds have caused injury, rust and shedding being quite prevalent. In Tennessee, Mississippi and portions of Arkansas the crop has improved. Cotton needs rain throughout Texas, and is failing rapidly in the central, southern and southwestern portions. Picking is general in Texas, and is beginning over the southern and central portions of the eastern districts.

Tobacco has sustained injury from rains in portions of Maryland, Virginia, North Carolina and Tennessee, but has been greatly benefited in the last named state, as well as in the Ohio valley, where cutting is in progress.

The general outlook for apples continues unpromising, although slightly improved conditions are reported from portions of Ohio, Indiana and Illinois. The excessive rains have caused peaches to rot extensively in the middle and south Atlantic states. Generally to the east of the Mississippi river the soil is in excellent condition for fall plowing, and favorable progress with this work has been made in Kansas, Nebraska, and Oklahoma, but in the upper Mississippi valley the ground is generally too dry.

BRYAN OVERRIDDEN

His Faithful Allies Reject His Wish and Turn to Hill.

OMAHA, Neb., Aug. 20.—W. J. Bryan's advice has been rejected by the Democratic organization he originated in Douglas county in the beginning of his political career, and the body that has stood by him in all his battles. The Jacksonian club of Omaha has refused to listen to the wishes of the former democratic leader in the matter of extending an invitation to David Bennett Hill to attend the big political meeting to be given by the club on Sept. 7 in Omaha. President Gilbert of the Jacksonians started for New York yesterday to convey to Hill personally the invitation of the Jacksonians' organization to be the star speaker on this occasion.

Bryan was invited to be one of the speakers on this occasion and consented. Then he was asked to sign personally the invitation to Hill. This he refused to do. He said his invitations to Hill were worn out some time in 1896.

The club exerted all possible pressure on Bryan, but he refused to recede. Then it was decided to have Hill anyway. It has been understood that he will come.

REFORM PARTY IN SWEDEN

First Political Party in that Country For a Century.

STOCKHOLM, Aug. 20.—A new liberal party has been formed in parliament which has a great movement on foot to organize all the reformers of the country into one body. The chief reforms to be sought are an extension of the franchise, progressive direct taxation and the abolishment of protective duties on the necessities of life.

The strong democratic parties in Norway and Denmark welcome the new organization as a token of a better understanding between the Scandinavian countries. Members of the new organization pay one day's income into the party's treasury.

This is the first political party, in the ordinary sense of the term, that Sweden has had since the "Hats and Caps," which was destroyed in 1772.

TWENTY PASSENGERS DROWN BY CAPSIZING OF A STEAMER. TEN OF THEM WERE WOMEN

PADUCAH, Ky., Aug. 20.—The steamer City of Golconda, plying between this city and Elizabethtown, Ill., was struck by a squall during a storm about seven o'clock last night as she was en route to Paducah and turned over in ten feet of water, six miles above the city as she was going into Crowell's landing. Between seventeen and twenty persons are believed to have been drowned.

The disaster occurred as supper was being served and many of the seventy-five passengers were in the cabin. The wind struck the boat without warning and there was no time for those on the inside to escape. Capt. Jesse Bauer and Pilot E. E. Peck were the last to leave the boat and swam to shore. They saved several struggling in the water and left the survivors in a house near the bank and came to the city.

The Mary N. left soon after the survivors reached the city for the scene and returned at 11:30 o'clock last night with those saved. They report that ten women were drowned and that the total number of those who perished will reach seventeen or twenty. None of the bodies was recovered, as the rescuers could not get into the cabin. Only one woman was saved.

Killed on Electric Car.

NEW YORK, Aug. 19.—A locomotive crashed into a crowded trolley car in the Parkville section of Brooklyn late Saturday night. It is reported that six persons were killed and twenty or more injured. The accident happened at Avenue D and Gravesend avenue.

REVERSE

Suffered by Burglars in Several Recent Actions

French Loses Fifty Scouts at Steynsburg but Presses the Burglars Hard and Captures Two Prominent Officers, One of Whom Is Mortally Wounded—One Britisher Killed.

CAPE TOWN, Aug. 17.—As the result of the recent operations the Cradock district is considered to be clear of any large commandos. It is hoped that the Boers driven out of the district will be met by the columns operating in other districts.

A small column of the Duke of Edinburgh's Second volunteers and the Second Welsh mounted infantry made a forced march from Prieska, Cape Colony, and surprised a Boer camp at Middepoort (Middle Drift). The Boers fled, dismounted in the darkness, and abandoned everything, including eighty-six horses and a large quantity of ammunition. Eight colonial rebels were captured.

A portion of the Boer force, which occupied a neighboring opje, opened fire on the British. The fire was returned and the fighting lasted until dawn. Two British soldiers were wounded. The Boer casualties are unknown.

Cadet Mortally Wounded.

LONDON, Aug. 17.—General Kitchener reports to the war office, under date of Pretoria, Aug. 26, as follows:

"French reports that Gorringer attacked Kitzinger's commando on Aug. 13 north of Steynsburg, driving them north to near Venterspruit in confusion. Among the prisoners are Commandants Erasmus and Cachet. The latter is mortally wounded. French's other column is pressing the enemy northward. Fifty of French's scouts, proceeding to join the column near Bethesda, were surrounded in the hills by a superior force under Theron and surrendered. One man was killed. A captain was dangerously and three men slightly wounded. The prisoners were subsequently released."

Spaniards Grow Saucy.

MADRID, Aug. 21.—The Epoca says: "The Washington government, according to dispatches, has resolved to send a naval division to Panama and Colon. This may be the first step toward the appropriation of the canal. If Europe would cease to follow, as it has for so many years followed in relation to American affairs, a policy as torpid as it is egotistic, this action of the Yankees would not be possible, as would likewise have been impossible the mutilation of Mexico in the first instance and the subsequent spoliation of Spain."

Traction Cars in Wabash.

WABASH, Ind., Aug. 19.—The Wabash River Traction Company, which for the last ten days has been running its cars only to the business center of the city, began Sunday operating its line to the north end of Manchester avenue, one and a half miles from the business part of the town. The inability to get trolly wire delayed the completion of the road, but cars are now running from the termini here and at Peru, twenty miles. Hundreds lined the streets as the first car proceeded out the avenue.

Huge Dynamite Explosion.

HERKIMER, N. Y., Aug. 20.—Five tons of dynamite, stored in the old Mohawk and Malone roundhouse, in this village, blew up at 10:15 o'clock last night, instantly killing twelve or thirteen men, all members of the New York Central bridge gang, who were stopping in a car which stood on a side track near by. Bricks and fragments of iron were blown several blocks away. All the windows within several blocks were broken, and nearly all the plate-glass windows in the village were shattered.

First Cotton of the Season.

NEW YORK, Aug. 20.—The first bale of this year's crop of Georgia cotton was put up for sale at the cotton exchange yesterday. It was sold at 10 cents a pound, a fancy price.

BABY'S LIFE SAVED AT

COST OF MOTHER'S LIFE

ST. LOUIS, Aug. 19.—Heroines there are and heroines there have been in actuality and in fiction, but few examples in either category can compare with the fortitude of Mrs. Joseph Bosek, who stood with her back to a brick pavement, and her heels on the edge of a second-story window ledge, with flames belching in her face, and threw herself backward in order that her body might serve as a cushion to the fall of her 10-months-old baby, whom she held in her arms.

Mrs. Bosek figured that she was probably going to certain death, but maternal love crushed personal fear. A moment later she was raised unconscious from the sidewalk in the strong arms of a policeman. She now lies at the city hospital with a badly wounded back and severe internal injuries. Her husband, who leaped alone from the blazing apartments, is also a patient at the institution, both of his ankles have been sprained in his mad jump. The baby lies cooling in its mother's arms. She alighted from her long fall on the breast of her heroic mother and did not feel the shock.

As she lay on a cot at the City Hospital Mrs. Bosek said: "I suppose I may be injured for life, but my darling little one is safe and I am happy. I am in pain, yes, but she is not, so I am happy. I just held her close to my breast and let myself fall backward. I didn't care for myself so much as I did for my baby. I was so afraid I would turn in the air and fall on her. I thought all about it as I fell, but when a policeman carried us across the sidewalk and I felt her warm little body and heard her cry I knew she was all right. Please don't ask me to talk any more."

And the baby crooned blithely crawled toward its mother's breast, ignorant of the sacrifice that had been made that it might live.

Here is a Promising Crop.

NEW YORK, Aug. 20.—The planters and shippers of blue point oysters of the Great South bay say that the condition of blue points was never better at this time of the season, as they are remarkably fat and of excellent flavor.

Ecuador Takes a Hand.

QUITO, Ecuador, Aug. 19.—A force of Ecuadorian troops is ready to invade Colombia and a battle is imminent near Pasto, just beyond the Colombian frontier and about 150 miles north-east of Quito.

The Very Man.

When Leicester Harmsworth was making his canvass in Caithness before the recent British parliamentary election, he ran across a red-headed crofter who felt sore against politicians in general. As Mr. Harmsworth approached he waved him off. "Ye needna come here, sir," he said, and, to discourage an attempt, added, "The kind of man we want in Caithness is a right doon rascal, one that disna care a rap for God or man!" Nothing daunted, Mr. Harmsworth bowed bravely to his mission and soon succeeded in interesting the seeming irreconcilable. So ably indeed did he work his man that in the end the crofter, glowing with satisfaction and desiring to make amends for his first deliverance, seized Mr. Harmsworth's hand and exclaimed, "Sir, ye're the very man for us!"
